Why Duodecim EBMG is the ultimate tool to support busy physicians bedside medical decisions ? - Please read this short summary below :

Summary of Duodecim and EBMG

- The **Finnish Medical Society Duodecim** is Finland's **largest scientific association**. Established in 1881, Duodecim's membership today comprises **more than 20,000 doctors and medical students**.
- **Duodecim Medical Publications Ltd.** publishes information content for medical and healthcare professionals
- **Evidence-Based Medicine Guidelines (EBMG)** is an **easy-to-use collection of clinical guidelines** for medical care linked to the best available evidence.
- **EBMG is designed** to provide you with the information you need **quickly (seconds, not minutes)** and using a single search term. Designed for use at the point of care, the guidelines are delivered in a format that makes it easy for a clinician to make a decision regarding treatment. EBMG brings to You **what really matters in medical decisions : Applied Evidences in the Medicine.**

EBMG database includes

- Nearly 1,000 concise primary care practice guidelines
- Over 4,000 quality-graded evidence summaries, supporting the given recommendations
- Powerful software and indexing (including MeSH and UMLS), enabling quick and effective searching
- An expanding collection of videos, showing clinical examinations and procedures, and ultrasonographic examinations
- A searchable library of 1,400 high-quality photographs and images including extensive collections of dermatological and eye images
- Audio samples linked to articles, including descriptions of pulmonary diseases and heart murmurs in children
- All Cochrane Systematic Reviews cited within EBM Guidelines are provided in full text
- Tools for the calculation of e.g. peak expiratory flow rate variation, body mass index and LDL cholesterol
