Your password in our online catalogue is the same, so changing it will affect this one as well. The database of our registered users is refreshed in every 24 hours, therefore this service will not immediately be available for you after registration or in case you have to change your library card.

Your device is now ready to use the library's e-resources. If you want to turn it off later, just open the Wi-Fi settings and switch back the **'PROXY'** to the default **'None'**. Ask us if you need help or more information via <u>e-help</u>.

Good luck with your search.
